Institute on the Constitution
is presented as a public service of the
Constitution Party

The Constitution Party stands firmly on the principles of government laid down by our Founding Fathers in the Declaration of Independence and the U.S. Constitution. Unlike other political organizations, we do not believe these principles are outdated. We also recognize that the Constitution of the United States of America is actively the supreme law of the land and must be enforced. In the spirit of the Declaration of Independence it is time to remove power from that 'faraway' government in Washington D.C. and return it to the people, states and local communities.
