

ILLEGAL IMMIGRATION

What and Why is it Happening

Zogby, Pew, Roper and Dobbs polls show that a stunning 80 to 95 percent of Americans demand our borders be closed. They want legal immigration reduced back to the pre-1965 levels so immigrants will assimilate instead of what's happening: enclaving and separating.

Why would a sitting president be SO out of touch with his oath of office and with what is happening? Quick answer: he isn't. He's a driving force assisting illegal immigration. Why would the House of Representatives be so clueless for two decades concerning this quickening national nightmare? How could 434 (save Congressman Tom Tancredo) representatives be so useless to their constituents for so long? Short answer: they're part of the problem on both sides of the political aisle. How could 100 senators twiddle their thumbs while Americans write, call, phone, fax, attend town meetings and form militia groups to combat illegal aliens in every community and every state? Long answer: this is my take on it.

When Teddy Kennedy rammed the 1965 Immigration Reform Bill down the American peoples' throats, he opened the annual flood gates from a stable 175,000 immigrants to 1,000,000 mostly uneducated workers from foreign countries who worked for peanuts. Big business found out how to bust up labor unions by hiring those hapless immigrants who would not complain. From that point on, follow the money. In every aspect of this immigration invasion, whether it be illegal or legal, follow the green back dollar. Follow the greed over love of community or country.

Business barons from Amour, Swift, Tyson, Hormel, Wal-Mart, McDonald's, Wendy's, construction firms and many others found they could break unions' grip on wages by undercutting them with scab and illegal labor.

Meat packing plants paid \$18.00 an hour with benefits in the early 80s. Americans filled those jobs. Today, illegal aliens work at \$7.00 an hour with no benefits. No complaints, either. Corporate employers work millions of illegals off the books as if they don't exist-voila!-no taxes are paid on cash payments.

For an employer to hire an illegal alien is a \$2,000.00 fine for each illegal and up to five years in jail. How do these employers get away with it? They hire lobbyists like Jack Abramoff to make sure laws are unenforced, degraded or not passed.

Who makes sure senators and House reps don't enforce our immigration and hiring laws? Those corporations, of course!

In a June 1, 2006 article, Jerome Corsi commented:

I continue to argue that a "follow the money" strategy must be utilized to understand why President Bush has refused to close our border with Mexico, pushing instead for "comprehensive immigration reform" legislation that would allow the vast majority of illegal immigrants now in the U.S. to remain under a "guest worker" or "pathway to citizenship" provision. The underlying agenda of the Bush administration seems to be to create a NAFTA-plus environment in which workers, trade and capital will be allowed to flow unimpeded within the trilateral North American community consisting of the United States, Canada and Mexico.

The Invasion

Comments from Pat Buchanan, Aug. 25, 2006, buchanan.org

. . . In George W. Bush's tenure, 6 million intruders have been caught on our southern border breaking in. One in 12 had a criminal record. Behind them, waiting to see if Bush will grant amnesty or secure the border, are the world's 4 billion to 5 billion people whose average income is less than that of Mexico.

Last year, 155,000 OTMs ("other than Mexicans"), triple the number of 2003, from Latin America, the Middle East, Africa and Asia, were caught. Four of five never appeared in court. They vanished into our midst.

. . . On May 1, almost a million Hispanics marched under Mexican flags through Los Angeles to demand the rights of U.S. citizenship for all illegals. Aerial shots revealed huge signs reading, "This is Our Land" and "Chicano Power." . . .

In 1994, Californians sought to slow the invasion with Proposition 187, restricting welfare to U.S. citizens and legal aliens. After 187 won in a landslide, a federal judge threw it out. "Art" Torres, chairman of the California Democratic Party, exulted, "187 was the last gasp of white America in California."

. . . In the '90s decade, for the first time since the Spanish arrived, the white population of California fell. . . . By 2050, the Census Bureau estimates 102 million Hispanics will live in America, heavily concentrated in the Southwest. The ethnic, linguistic and cultural reconquest of the American Southwest by Mexico is well advanced.

Speaking in Madrid in 2002, Mexican President Vicente Fox declared: "Our long-range objective is to establish with the United States . . . an ensemble of connections and institutions similar to those created by the European Union, with the goal of attending to future themes as important as . . . the freedom of movement of capital, goods, services and persons. The new framework we wish to construct is inspired in the example of the European Union."

[Mexican] Foreign Secretary Luis Ernesto Debrez put it succinctly in April 2005. What Mexico is about is "complete integration" of the two nations.

It's Cold Treason

A visitor to Buchanan's web site got it right when he commented on the subject saying:

"The open border policy is not only lunacy but cold treason. The current administration and all the members of the CFR (Council on Foreign Relations) need to be prosecuted for treason whether they're in or out of office. Every last one of them. That means that 95% of congress is guilty of treason by virtue of their membership in this organization who's stated intent is to bankrupt the country and destroy it's sovereignty to make it a vassal state of the UN. This must be stopped at all costs."
